

Date: 15 September 2022

Day: Thursday

Time: 09:00 am to 5.30 pm

Dear Participant,

Please follow the instructions and links given below and get ready for the workshop.

1. Please ensure that you have OpenModelica installed on your system. The installation instructions to download OpenModelica are available in the link here:
[OpenModelica Installation Guide](#)
2. Please ensure that you have Scilab version 6.1.0 or higher installed on your system. The installation instructions to download Scilab are available in the link here:
[Scilab Installation Guide](#).
3. Please ensure that you have FOSSEE Optimisation Toolbox (FOT) version 0.4.1 installed on your system. The installation instructions to download FOT are available in the link here: [FOT Installation Guide](#).
4. To see the installation video on how to install FOT watch the Spoken Tutorial on **Installation of FOSSEE Optimization Toolbox** available in the offline CD content.
5. For the Workshop sessions:
 - a. Although Spoken Tutorials are already available to you, it is better you use an offline version, as you will not be affected by poor bandwidth, etc.
 - b. Please download an offline CD content of Spoken Tutorials for OpenModelica, and, Scilab FOSSEE Optimisation Toolbox available here:
<https://static.fossee.in/Master-Class-Workshop-OMandFOT/>
 - c. Please keep the CD content ready on your desktop before the day of the workshop.
 - d. General instructions for the workshop can be found here [Workshop Instructions](#).
 - e. The tentative schedule for the workshop can be found here [Master Class Schedule](#).

Regards,
FOSSEE Team,
IIT Bombay
