INDIA MAP

Layout Edit View Items Add Item Atlas Settings

The screenshot displays a software application window titled "INDIA MAP". The main workspace contains a map of India with a purple fill. The map is overlaid with a coordinate grid showing longitudes from 60°E to 100°E and latitudes from 10.0°N to 40.0°N. A scale bar at the bottom left of the map indicates distances of 0, 500, 1,000, and 1,500 km. A north arrow is positioned in the upper right corner of the map area. An inset map in the top left corner shows the location of India within the world's continents. The software interface includes a menu bar with options: "Layout", "Edit", "View", "Items", "Add Item", "Atlas", and "Settings". A toolbar with various icons is located below the menu bar. On the right side, there is a panel with "Items" and "Item Properties" sections. The "Items" section lists several elements: "<Legend>", "Map 2", "MAP OF INDIA", "<Scalebar>", "<Picture>", and "Map 1". The "Item Properties" section is currently empty. At the bottom right of the window, the status bar shows the dimensions "x: 339.605 mm y: 140.16 mm", the page number "page: 1", and the zoom level "48.9%".
