Satellite Image of 2018

**MAP DESCRIPTION**

**Introduction:** The Shoreline is the boundary between land and water body. The shoreline is defined as the line contacting between the mean high water line and the shore. Shoreline change were caused by the processes of erosion, wind, wave and sea level rise. We tried to showing this changes through the East Midnapore.

**Shoreline Length(m)**

	A	B	C
2012	2243.38	9127.94	2711.09
2018	2319.15	9272.08	2962.90
