IIT Bombay

Current developments
- Optimisation of response time
- Migration of Labs to Sandhi
- Improvement of GUI features

Future developments
- Sub-GRC calling: Output of one .grc will be input of another .grc file.
- Calling Scilab remotely using Sciscipy

About FOSSEE
FOSSEE (Free and Open Source Software for Education) project is a part of National Mission on Education through ICT, which focuses on 'Adaptation and development of Open Source simulation packages equivalent to proprietary software' funded by MHRD, based at Indian Institute of Technology, Bombay.

Activities of FOSSEE
- Textbook Companion
- Lab Migration
- Spoken Tutorials
- Low Cost Laptop
- Forums

Forum
Forum is a place where one can post all their doubts and questions which users / developers get while using Sandhi. For this purpose, the Sandhi team, FOSSEE, IIT Bombay operates it's own forum.
