

Activities of FOSSEE

Textbook Companions

The Textbook Companion (TBC) activity aims to port solved examples from standard textbooks using any Free and Open source software (FOSS) .

The objectives of this project are to:

- Make individuals learn FOSS through a practical approach
- Provide a huge database of Textbook Companions as a learning resource
- Make it easy for users of such textbooks to start using FOSS
- Improve the documentation available for FOSS

Lab Migration

We help colleges to shift labs based on proprietary tools to FOSS.

The Lab Migration team helps in:

- Coordinating lab migration to FOSS only labs
- Providing solutions to the lab's problem statements
- Supporting free workshops for faculty, students & lab staff

Participate in the above activities and earn attractive honorarium + certificate for your efforts.

SELF Workshops

The FOSSEE team conducts workshops for faculty development to promote FOSS in education. For self learning, we recommend you to use the Spoken Tutorials available on our web site.

Forum

Forum is a place where one can post all their doubts and questions which users / developers get while using any FOSS.
